

The Pledge

Our greatest failure for over 400 years right here in America has been our inability to protect our families, our children, each other. This has been due to White Supremacy. But today is a new day. History will not repeat itself. The Destroyer has had its day. Now, we will have ours.

To My Loved Ones: I Make the Following Pledge to You: I will work and plan as meticulously as I possible can to ensure that you get every opportunity you need to live lives that are healthy, positive and full of love, dignity and respect. You will no longer be attacked. You will no longer have to live in fear and uncertainty. Your future is bright. Be free to spread your wings and fly.

This is My Pledge to You, My Beloved Family. I Promise to Not Let You Down.

With All My Heart & Soul.
