

The Ten Million Letter Delivery

The Ten Million Letter Delivery is a visit to Washington, D.C. the summer of 2019. There, we will delivery one million letters each to the offices listed below. The Delivery will serve as our official notice to our government in terms of what we want, what we expect, and how our government can be much better in terms of fairness, true equal opportunity, an end to discrimination, and the adoption of the newest honorary addition to the Bill of Rights, the 28th amendment, 'The Right to be Left Alone.'

The Ten Million Letter Delivery also serves as a reintroduction of Black America to the world. The world wants to see us succeed, the world needs to see us succeed, and we need to let the world know that is exactly what we will do. We need to let the world know that although we are not okay today, things are about to get much, much better. The world needs to know that we are strong, that we are all done being the victims of a White Supremacist world, that we are still here, and that we will ascend.

Take a look at all ten letter templates. Send in one, all ten, or whichever letters have meaning to you. We need everyone to be a player in this ascension effort. It is time to make America into what we heretofore will call, 'Our Greatest America' ever.

Make your voice heard. Click the letter, or letters, you wish to download and send them in to the address provided. It's time! It's a beautiful day to be Black in America!
